

ANESTHESIA CAMP VIII *Laguna Beach*

REGISTRATION

Register online at:
www.destinationCME.com/Registration.html

If you prefer to register by fax or mail, please complete and return the enclosed registration form.

The course fee is **\$895** for physicians and nurse anesthetists, and includes CME/CE certification, conference syllabus, continental breakfasts and refreshment breaks. \$100 will be retained to cover administrative expenses should you cancel your registration. There will be no refunds after **August 29, 2011**.

Optional session: "Peripheral Nerve Block Workshop" on Friday, September 30th.
\$225 per person including CME/CE certification. *Limited to 20 registrants.*

ACCOMMODATIONS

Striking turn-of-the-century architecture, pristine white sand beaches, and the historic and artistic charm of a quiet seaside village all converge at **Montage Resort & Spa** – the beachfront luxury resort in Laguna Beach with heart-stopping panoramas of the Pacific Ocean.

Inspired by the breathtaking physical surroundings and the enduring creative spirit of the artists who settled in Laguna

Beach nearly a century ago, this coastal destination features distinctive wood and stone craftsman-style architecture, complimented by lush, indigenous landscaping.

We have reserved a block of rooms exclusively for registrants, at the rate of **\$395** per night, which is applicable three days before and three days after the meeting, subject to availability. You must register and pay for the conference in order to receive the special group rate.

Reservation instructions will be provided in your registration confirmation. *Please book your reservation early as the room block is likely to sell out before the deadline.*

GETTING THERE

Montage Resort & Spa is just 30 minutes from **John Wayne/Orange County Airport (SNA)** and 60 minutes from both **Los Angeles (LAX)** and **San Diego (SAN)** International Airports.

Revised 8/8/11

ANESTHESIA CAMP VIII *Laguna Beach*

Montage Resort & Spa
Laguna Beach, California
September 29-October 1, 2011

ACTIVITY MEDICAL DIRECTOR

John E. Ellis, MD

Adjunct Professor, Department of Anesthesiology and Critical Care
University of Pennsylvania School of Medicine

ACTIVITY CO-DIRECTOR

Brian Ginsberg, MB BCh

Associate Professor, Department of Anesthesiology
Duke University Medical Center

Jointly sponsored by

ANESTHESIA CAMP VIII, LAGUNA BEACH

Jointly sponsored by the Duke University School of Medicine and destinationCME

**Montage Resort & Spa
Laguna Beach, California
September 29-October 1, 2011**

STATEMENT OF NEED

This activity is designed to help clinicians implement changed guidelines which recommend beta blockade less strongly than before; achieve greater consistency and clarity of pharmaceutical and syringe labeling, in accordance with human factors; and facilitate the collection of clinical data to improve rather than merely to document a significant dimension of patient care.

TARGET AUDIENCE

Anesthesiologists, hospitalists, intensivists, pain management physicians; CRNAs.

DISCLOSURE

The Duke University School of Medicine adheres to ACCME Essential Areas, Standards, and Policies regarding industry support of continuing medical education. Disclosure of the planning committee and faculty's commercial relationships will be made known at the activity. Speakers are required to openly disclose any limitations of data and/or any discussion of any off-label, Experimental, or investigational uses of drugs or devices in their presentations.

RESOLUTION OF CONFLICTS OF INTEREST

In accordance with the ACCME Standards for Commercial Support of CME, the Duke University School of Medicine will implement mechanisms, prior to the planning and implementation of this CME activity, to identify and resolve conflicts of interest for all individuals in a position to control content of this CME activity.

LEARNING OBJECTIVES

Upon completion of this educational activity, participants should be able to:

1. Provide amnestic drugs. Utilize intraoperative electrophysiology monitoring.
2. Manage hypotension accompanying neuraxial analgesia and anesthesia; "...phenylephrine may be preferable because of improved fetal acid-base status in uncomplicated pregnancies."

3. Avoid neuraxial anesthesia in patients with infectious risks. Identify neuraxial infections. Refer surgical candidates for Rx of such infections.

CREDIT*

The Duke University School of Medicine designates this educational activity for a maximum of 17.0 AMA PRA Category 1 Credits.™ Physicians should only claim credit commensurate with the extent of their participation in the activity.

Approved by the American Association of Nurse Anesthetists for 17 CE Credits; Code Number Code Number 33932, Expiration Date: October 1, 2011.

*General Session offers up to 15.0 credits.
Optional Workshop offers up to 2.0 credits

ACCREDITATION

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the Duke University School of Medicine and destinationCME. The Duke University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

DISCLAIMER

The information provided at this CME/CE activity is for continuing education purposes only and is not meant to substitute for the independent medical judgment of a physician relative to diagnostic and treatment options of a specific patient's medical condition.

FACULTY

Brendan Carvalho, MBBCh, FRCA, MDCh
Stanford School of Medicine

Suanne M. Daves, MD
Vanderbilt University Medical Center

John E. Ellis
University of Pennsylvania School of Medicine

Neesa Patel, MD
David Geffen School of Medicine at UCLA

Corey Scurlock, MD, MBA
The Mount Sinai Medical Center

Shu-Ming Wang, MD
University of California, Irvine

Paul F. White, PhD, MD, FANZCA
Cedars-Sinai Medical Center

Bitu Zadeh, MD
David Geffen School of Medicine at UCLA

Thursday, September 29, 2011

7:00 am	Continental Breakfast	
7:30 am	Wellness in Anesthesia Providers	Dr. Ellis
8:15 am	Business Strategy for Anesthesia Group Practice	Dr. Scurlock
9:00 am	Perioperative Glycemic Control	Dr. Scurlock
