

ANESTHESIA CAMP

Grand Cayman

The Ritz-Carlton, Grand Cayman
January 25-28, 2023

STATEMENT OF NEED

This activity is designed to help clinicians learn how to manage individual patients undergoing complex surgery so they emerge faster, with less pain, nausea and vomiting, and cognitive decline; and hasten the return of functional status. The activity will also facilitate adoption of systems-based practice to improve population health in surgical patients.

TARGET AUDIENCE

Anesthesiologists, hospitalists, intensivists, pain management physicians; CRNAs.

LEARNING OBJECTIVES

- Provide standardized perioperative care, with an emphasis on safe practice of regional anesthesia, for patients undergoing orthopedic and other peripheral surgery.
- Provide evidence-based fluid therapy, to optimize vital organ function without cause cardiopulmonary or wound healing complications.
- Work at an institutional level to develop, implement, and refine enhanced recovery programs after surgery.
